1. What is your connection or interest in this case? * For example, are you a customer of the Company that is the subject of this pending proceeding? (This section must be completed. Attach additional information if necessary.)

Second Sunrise Solar is a solar energy company that specializes in residential sales of solar panels.

2. Please give a concise statement of your protest. * (This section must be completed. Attach additional information if necessary.)

The fees proposed by Dominion Energy on solar homeowners, as well as their attempts to slash solar energy credits, would stifle the solar energy business and put thousands of jobs at risk. The incentives to switch to solar energy not only help solar homeowners make a responsible investment financially but also aides Dominion in the production of electricity for their customers with Net Metering and allows all parties to participate in the global efforts to invest in the health of the planet. By imposing fees and removing incentives for those who switch to solar power, Dominion Energy is acting against the best interest of its customers and a devastating blow to South Carolina's job market. It's 100 steps backward and a 'slap in the face' to the time and money spent to pass the Energy Freedom Act of 2019.

3. Do you wish to make an appearance at a hearing in this proceeding, if scheduled, and offer sworn testimony? *

If called, we would be happy to.
